The basics are pretty simple:

- Compete by yourself or on a two-person team. Youth on teams should be the same 4-H age level (e.g., Senior Level II).
- The demonstration area is indoors and limited to an 8-foot by 8-foot area.
- Follow the 4-H Dress Code.
- No live animals or endangered or threatened plants.
- If you use equipment, know how to operate it safely.
- Your demonstration is more than a talent show. (Example: If you choose to play the piano, demonstrate different types of music, influence of music in the world or some other interest that involves music.)
- If you plan to use open flames, chemicals, power tools, sharp objects (knives, saws, clippers, fish hooks, etc) or ATVs in your demonstration, follow the Risk Management Guidelines.
- Demonstrations should be 5-10 minutes. No more than 5 minutes for set-up. Set-up time and answer period are NOT included in the 5-10 minutes demonstration limits.
- You may use notes, but don’t read from them.
- Event facilitators will supply one table and one easel. You must supply anything else.
- PowerPoint presentations, slides, and videos are okay to use, but must be provided by the presenter and should not replace you speaking to your audience.
- Cover or remove any visible brand name labels.

Please Note: Repeat Winners

A first place winner may compete again in Freestyle Demonstration, but the subject of the presentation must be different. For example: natural resources one year and consumer science another year.
Risk Management:
If you plan to use open flames, chemicals, power tools, sharp objects (knives, saws, clippers, fish hooks, etc) or ATVs in your demonstration, you MUST complete a Risk Management form two weeks prior to the event.
Your written Risk Management Plan should be provided to the following:
- County event – County Extension Coordinator
- Regional event – 4-H Regional Extension Agent
- State event – 4-H Events Coordinator

The plan should include:
- How you are planning to transport and store the item(s) before and after your demonstration;
- How you will use the item(s) in the demonstration;
- How you will ensure that the demonstration is safe for you and the audience.

Include your name, age, county, e-mail address, day-time phone number and your 4-H Agent’s name. If there are concerns about your plan, you will be notified prior to event. Bring a copy of your plan with you to event.

How to Get Started:
- Select a topic
- Decide on a title that will grab the audience’s attention. It should be simple and tell what you will demonstrate.
- Determine the purpose of the demonstration. You know a lot of stuff, but you only have 5-10 minutes to teach it, so don’t try to cover too much. Stay focused on a main idea.
- Develop an outline of the topic.

A good demonstration has four parts:

1. The introduction…..tell them what you are going to tell them. Make the introduction creative, interesting, and informative. You might ask a question, give a startling statistic, or involve the audience in a short activity. Include your purpose and a list of things you might need.
2. The body…..tell them- Put together a step-by-step plan. For each step explain WHAT is being done, HOW it is being done, and WHY it is being done. Decide which steps may be finished or partially finished ahead of time. Plan how the audience will be able to see each step. Do you need to prepare samples or enlarged drawings? Try arranging the demonstration area so that you are working from left to right, or right to left if you prefer.
3. The summary…tell them what you told ‘em- During the summary you should display the finished product(s) and then highlight the main points. Motivate your audience to want to try your ideas. Decide if your audience needs a handout to take home for future reference, or a small sample of the finished product.
4. Responding to questions…by repeating the question to the audience so that everyone can hear. Then provide the answer. After answering all the questions, it is a good idea to end the demonstration by saying, “This concludes my demonstration”, or simply, “Thank you” and a smile!

Parents’ & Volunteers’ Guide
Like all 4-H projects, this activity is just for young people. The role of adult helpers is to support and encourage youth in their efforts, to ask and answer questions about the project, and to help youth learn specific techniques that they might use in their project.
Tips for Giving a Good Freestyle 4-H Demonstration:

Practice, practice, practice your demonstration. Say and do everything you plan to say and do in front of an audience. Time yourself as you practice. When you feel you are ready, ask family and friends to watch and give you ideas on how to improve.

Be organized. Use trays or baskets to group small equipment, supplies, and ingredients together. Try using one table as your work area and the other as a supply table. Arrange your equipment and supplies in the order you’ll use them, and away from the front of your working space.

Use visual aids such as signs, posters, PowerPoint, and video sparingly. Keep visuals simple. Lettering should be large enough to be read from a distance of 20 to 30 feet. Show visuals only for the time needed. Keep them out of sight before and after use.

You have only one chance to make a first impression. Use good posture, with weight evenly on both feet. Wear clothes that fit properly, are neat and clean, and appropriate for the type of demonstration you are giving. Wear jewelry that does not dangle or make noise.

Speak clearly and distinctly. Speak loudly enough to be heard across the room. Talk directly to the audience, not the table or the floor.

Smile and enjoy teaching others.

Judging Guidelines:
The score sheet allows 4-H youth to specifically see what skills they need to improve and what skills they have already mastered.

Suggestions for Event Facilitators:
- If possible, gather information about the demonstration topics prior to event. A) Use your discretion to ensure that the topic is suitable for a 4-H audience. B) Look for common topics and select judges that are suitable.
- Have participants draw numbers to determine the order of presenting.
- Encourage the audience to ask questions at the end of each demonstration. Questions aimed at discrediting the presenter should not be allowed.
- Introduce participant by name and the club and/or county they represent.
- No time warnings are necessary. Begin timing after their introduction and stop the timing when they ask for questions.

The best judges are people who regularly speak or demonstrate before a group and convey a warm personality. They also are people who are comfortable applying standards. Teachers (by profession or knack) make excellent judges. Remind judges to have a few questions ready to ask in case the audience has no questions.

Advancing Through Competition:
Congratulations! The judges recognize that you have come up with a really good project and made great choices. Your hard work and your skill created something wonderful.

4-H Regional/Area Awards will be determined by the planning committee for that event. Notice will be sent to each county involved.

State Competition and Awards
Each county may register one Senior Level I and one Senior Level II individual in each event that is offered.

On the state level, ribbons will be awarded to 50% of the participants in a contest using ordinal rankings up to a tenth place ranking. Example: If there are 10 participants, first place will receive the Alabama State Trophy and a first place ribbon; placing ribbons will be awarded for the next four ranked participants for placing of second through fifth. The other five participants will receive honorable mention ribbons.

Identification of Entry
Name(s), county and level of participation should be displayed with each entry. Identification may be part of the introduction in the demonstration.
Disqualification of Entry

- Not submitting Risk Management Plan in a timely manner if one is necessary.
- Only doing a “talent show” rather than a demonstration.
- Larger than 8ft x 8 ft demonstration area.

Freestyle Demo Ideas

- **Youth Art:** Sketches & Paintings, Sculpture, Mosaics, Calligraphy
- **Sewing & Needle Arts:** Knitting, Cross stitch, Embroidery, Heritage Garments
- **Life Skills:** Safety/emergency Preparedness, Communications, Technology
- **Wood Science:** Craving, Wood Burning, Furniture restorations
- **Power:** Automotive, Small Engines, Electronics, Welding
- **Natural Resources:** Environmental Safety, Water Quality, Air Quality, Radon, Rocks, Wildflowers,
- **Lost Arts:** American Heritage, Handspun Yarn, Family Records, History of local community
- **Animal Science:** Pocket Pets, Herdsmanship, Veterinary Science, Companion Animals
- **Crafts:** Ceramics, Cake Decorating, Porcelain, Metal Tooling
- **Miscellaneous:** Creative Writing, Collections, Model Rocketry, Model Cars/Airplanes

Above & Beyond

- Use a combination of three dimensional and two dimensional visuals to accentuate your topic.
- Deliver your demonstration to another local community group, a school group, or a church group.
- Have someone videotape you delivering your demonstration. Watch it. Critique it. Make a list of possible questions the audience may ask you and be ready.
- Create a power point presentation on preparing and presenting a demonstration. Show it to your club.
- Make arrangements to visit a television station or another kind of oral presentation to observe others speaking to an audience. What makes them a good speaker – take notes.
- Ask the television station manager if you can give your demonstration on-air to their viewing audience – live or taped for airing at a later date.

Career Connections

Can you honestly think of a career that does not require you to communicate with people? In fact, in the future, your communications skills will not be evaluated by a 4-H judge and awarded a ribbon placing. Your communications skills will be evaluated by your boss or manager and will partially determine your pay raise and promotional opportunities. 4-H has stressed communication skills throughout our 100 year history. Communication has been, and will always be, an important life skill.

The Alabama Cooperative Extension System (Alabama A&M University and Auburn University) is an equal opportunity educator and employer. www.aces.edu
Risk Management Form

In using open flames, chemicals, power tools, sharp objects (knives, scissors, etc), you MUST complete a Risk Management Plan two weeks prior to the contest. You may use this form for that purpose. Risk management plans must be done for the following contests:

- Chicken-que
- Freestyle 4-H Demonstration

Your written Risk Management Plan should be provided to the following:

- County Agent, Volunteer leader, or 4-H Regional Extension Agent

1) How you are planning to transport and store the item(s) before and after your demonstration?

2) How you will use the item(s) in the demonstration?

3) How you will ensure that the demonstration is safe for you and the audience?
