ACES/AU Form R-10 **Recording Alabama AFO/CAFO Resource Agency On-Farm Visits For AFO/CAFO Continuing Education**

The goal of the AFO/CAFO continuing education (CE) program is to provide owners, operators, and employees involved in managing or working at an AFO/CAFO access to the most current information they need to meet waste management requirements and protect water quality. Individualized training received during on-farm visits by ADAI, ACES or NRCS personnel may qualify for credit with good records of date, time, content and length of direct contact training provided and name and position title of agency visitor. Items marked with an asterisk (*) ***must*** be completed. ***This form needs only to be maintained on-farm by the AFO/CAFO unless requested by ADEM for CE verification!***

Farm Operation Name _____* ADEM # (If Applicable)_____*

Farm Operator Receiving AFO/CAFO On-Farm Continuing Education _____*

Resource Agency Name Providing Continuing Education: _____*

Resource Agency Employee Name: _____* Position Title:_____*

PLEASE COMPLETE, SIGN AND DATE THIS FORM BELOW!

Subjects that may be covered in these on-farm visit situations will vary according to the individual AFO/CAFO visited and particular education needs of each AFO/CAFO operation. Typical subjects covered are listed below:
