

2005 Project Progress Report
Alabama Wheat and Feed Grain Committee
December 2005

Title: On-Farm Evaluation of Wheat and Oat Varieties

Investigators: Leonard Kuykendall, Regional Extension Agronomist, Central Alabama
Heath Potter, Regional, Extension Agronomist, North Alabama
Richard Petcher, Regional Extension Agronomist, South Alabama

Progress Results:

Two (2) Oat Variety Tests have been planted with the identical 8 varieties with farmer cooperators in Coffee and Washington Counties

Five (5) Wheat Variety Tests with the same 10-12 varieties have been established in Baldwin, Colbert, Coffee, Elmore and Talladega Counties

All tests will be monitored for growth, development, and insect and disease presence prior to harvest in late May- June.
