RE: 2009 Precision Agriculture and Crops Field Crops Conference

On behalf of the Organizing Committee, I would like to invite you to participate in the 2009 Precision Agriculture and Field Crops Conference scheduled to be held on December 8 at the Wind Creek Hotel in Atmore, Alabama. This year's event will focus on the implementation and benefits of precision agriculture technologies and management for both crop and livestock production. Speakers will highlight auto-swath technologies, variable-rate application techniques, RTK guidance systems and the economic benefits of these practices. Display areas are available for vendors, along with an educational poster session.

We are expecting good attendance, so we are asking for your participation as a sponsor of this event. Two levels of sponsorship are being provided this year which are outlined on the attached Exhibitor Form. For both levels, you may set up a display (a table and two chairs will be provided) and your company logo will be placed on the conference t-shirt provided to all participants. Please complete the attached Exhibitor Form to register your company for this event. An area near the hotel will be available to conduct demonstrations and display larger equipment, so please indicate on the form whether you would like to take advantage of this option. To ensure your logo is placed on the t-shirt and display area reserved, your payment must be received by **November 1, 2009**.

Further, a block of rooms has been reserved at the Wind Creek Hotel under Precision Agriculture and Field Crops Conference. For reservations, please contact the hotel at 1-866-WIND360. Displays should be setup between 7:30 and 8:00 AM on December 8. Conference registration opens at 8:00 AM and a lunch will be served around noon for all participants.

We hope you consider participating in the 2009 Precision Agriculture and Field Crops Conference. I believe we will have an excellent program covering precision agriculture use in the Southeast US. Details for this event, including the final program, will be posted on the Alabama Precision Agriculture website: www.alabamaprecisionagonline.com. If you have questions, feel free to contact us. Exhibitor related questions can be address to John Fulton at 334-844-3541 or fultojp@auburn.edu. Questions regarding the conference can be directed to Ms. Shannon Norwood, 256-412-1696 or email at hubersr@auburn.edu, who is coordinating this event.
