Wiregrass Precision Ag Meetings Scheduled for July 6

The Alabama Cooperative Extension System Precision Ag Program will host two Precision Ag Update meetings on July 6, 2010. The meetings will feature a variety of topics including automatic section control, yield monitoring, guidance, RTK networks, CORS, and variable-rate applications along with adoption and economic considerations for precision ag technologies. An introduction to precision ag technologies will be provided followed by an open discussion period to allow producers the opportunity to address specific precision ag questions with Extension precision ag specialists. Company representatives will also be on hand to address product questions.

Meeting details:
Wiregrass Research & Extension Center                                Coffee County Community Room
Headland, Alabama                                                    New Brockton, Alabama
10:00 a.m. – 12:30 p.m. (lunch provided)                             6:00 p.m. – 8:30 p.m. (dinner provided)

Registration for the meetings is not required, but is appreciated. For more information or to RSVP, contact Amy Winstead at 256-353-8702 or winstat@auburn.edu or visit the Precision Ag website at www.AlabamaPrecisionAgOnline.com.
