SOIL TESTING
LABORATORY

September 24, 2007

Dear Soil Test Customer:

Since 1953, the Soil Testing Laboratory at Auburn University has been a source of economical, unbiased fertilizer and lime recommendations for Alabama farmers and homeowners. As we approach our 55th year of service, we're making some changes to serve you better.

We have revised the Soil Sample Information Form and have enclosed a copy of that form for your use with your next soil sample. Other changes include:

- New payment options, including credit card payments
- Standard rate of \$7 per sample
- Routine soil analysis results delivered in 3 to 7 days
- Results sent by email, fax, or USPS mail

For more information you can visit our website at <http://www.aces.edu/soiltest>

We appreciate the opportunity we've had to serve you and look forward to continued service in the future.

Sincerely,

A handwritten signature in cursive script that reads "Gobena Huluka".

Gobena Huluka, Ph.D.
