

Lady Bird Johnson visited relatives in Autauga County every summer during her childhood. As Lady Bird explained, "Until I was about 20, summertime always meant Alabama to me. With Aunt Effie, we would board the train in Marshall and ride to the part of the world that meant watermelon cuttings, picnics at the creek, and a lot of company every Sunday." In our own tribute to that special "Lady", the Friends of Lady Bird Johnson Wildflower Garden are raising funds to create a garden here in Autauga County. Auburn University has set aside three

acres of their 80-acre Auburn University Agriculture Experiment Station on County Road 4 to house the garden project.

The layout of the projected garden includes a children's garden, a butterfly and hummingbird

garden, a woodland garden, a native garden and a trial garden for showcasing flowers that are either not native to our state and/or our region. Phase 1 which will include the entrance walkway, Children's Garden and Butterfly & Hummingbird Garden will open to the public on May 23, 2009.

Our overall budget for this garden is \$150,000. This will allow us to include an outdoor teaching pavilion and restroom/kitchen/meeting hall. To help us reach our goal, we are enthusiastically asking for you to be a permanent partner with us by purchasing a brick paver. These pavers will be used in our entrance walkway, surrounding our lighted kiosk, and other areas throughout our garden.

They can be engraved to remember a loved one, your organization, or with your favorite saying or verse. A 4"x8" brick paver is \$35; the 8"x8" brick paver can be sponsored for \$75; and the largest brick pavers, 12"x12", are \$150.
