Farm Analysis Association Meeting

The Central Alabama Farm Analysis Association will conduct its 22nd annual meeting at the William Howard Smith Agricultural Center in Autaugaville on Tuesday, November 6 at 6:30 P.M. A meal will be served and then Mr. Ed Whatley, Beef Promotion Director for Alabama Cattlemen's Association, will be the guest speaker. Coosa producers are invited to attend and support this meeting of farm analysis cooperators.

The Central Association serves approximately 56 farm families and related businesses by helping them keep better records and use them more effectively in decision making.

The association is looking for prospective members and would like to add 5 or more additional farms in 2008, so we hope area producers will attend who may be interested in participating.

If you plan to attend, please contact Hal Pepper, Extension Economist, at (334) 361-7273 before Thursday, November 1, 2007 so they can prepare for the meal.
