Installing Sharp Copiers/Printers

These instructions will help you install the Sharp Copier/Printer/Scanner onto your computer. After you install the printer, be sure to add your printer user access code to the printer settings. You can install multiple Sharp copiers/printers.

To begin the installation process, click on **Start, Control Panel**, and then **Add or Remove Programs**. In the Add or Remove Program window, select **Add New Programs** on the left hand side of the screen.

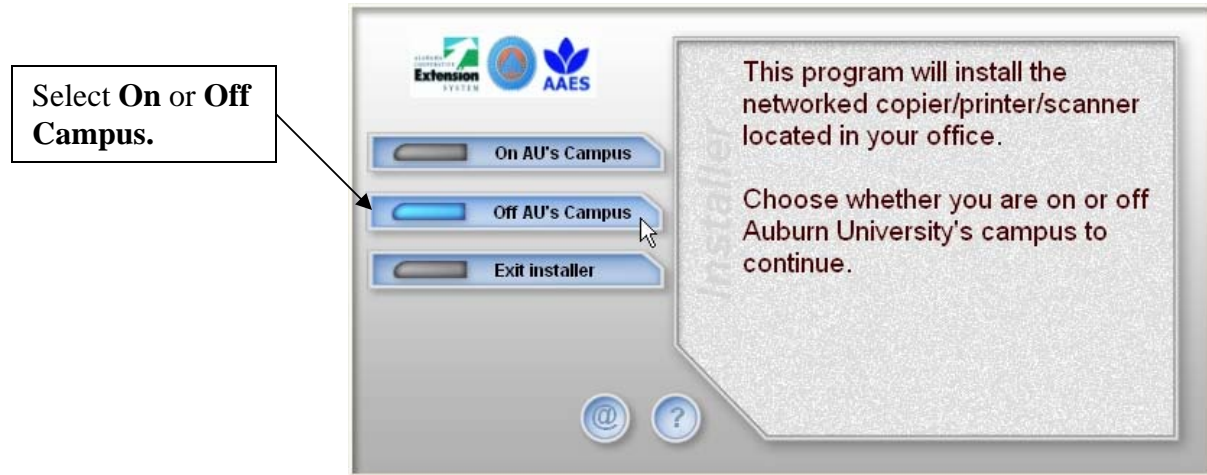

After selecting Add New Programs, select **Sharp Copier/Printer Installer** and then select **Add**.

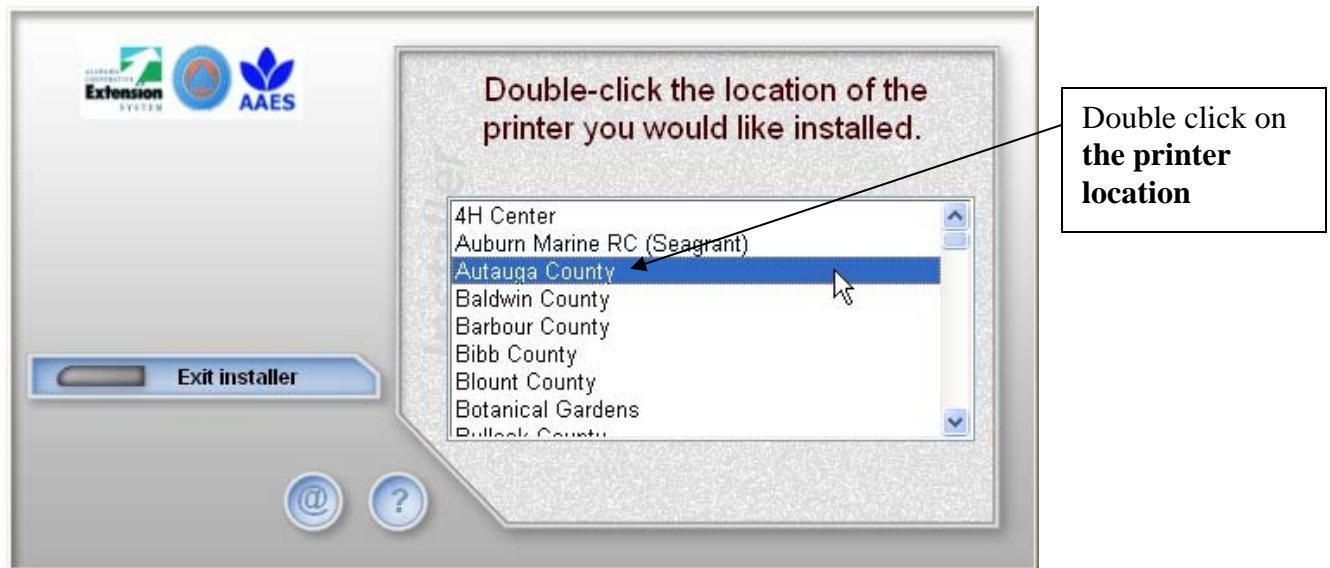

Sharp Copier/Printer Driver Installation

Choose **On AU's Campus** or **Off AU's Campus**.

Double click on the location of the printer you wish to install to begin the installer. Once the installer begins, it will take several minutes to complete.

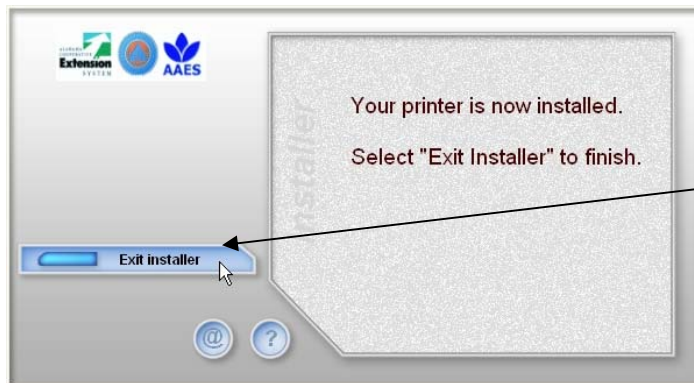

Sharp Copier/Printer Driver Installation

During the installation, you will see a “Hardware Installation” window. Select **Continue Anyway**.

Select **Continue Anyway**.

When the installation is complete, you will see a window similar to the one below. Select **Exit Installer**. After installing the printer, add your access code to your printer settings. These instructions can be found in the Setting User Access Codes for the Sharp Copiers/Printers on the CTU website.

Select **Exit Installer**.
