By: P.J. Waters, Aquaculture Extension Specialist
Alabama Sea Grant/Auburn Marine Center

Summer is close at hand, and if you have considered getting that old pond back in shape for fishing, or have just completed a new pond and need to know what to do next, consider signing up for the Recreational Pond Management course being hosted on Saturday May 15, 2010 at the Five Rivers Delta Resource Center.

I will speak to the group about pond management strategies including, stocking, weed control, water quality, and more. This is a great opportunity to get some advice on your pond's management plan, or if you do not yet have a management plan, I can help you get started. Effective management plans for ponds and lakes can help you have a more productive and attractive, and by extension a more enjoyable pond experience.

Registration for this event is free, but you should call Shonda Borden at the Five Rivers Delta Resource Center to reserve a place. Shonda can be reached at 251.625.0814. We will begin at 10:00 AM. I look forward to seeing many of you there!

For additional questions or information, contact P.J. Waters, Auburn University Marine Extension and Research Center, 438-5690.
