

Tennessee Valley Stored Grain Pest Management Workshop

Tuesday July 22, 2008

Location: Meet at Henderson Farms in Mooresville, AL. Directions from I-65 North or South: take I-565 East to Exit 3 Greenbriar Road. Turn right on Greenbriar Rd (this turns into Swancott Rd), follow Swancott Rd to SW Rockhouse Rd. Turn right onto SW Rockhouse Rd. Go about 2 miles and turn left onto Henderson Road. Henderson Farms will be immediately on the left. After hands on training we will go back to the Tennessee Valley Research and Extension Center in Belle Mina, AL (Experimental Loop Belle Mina, AL 35615), for lunch and more presentations.

- 9:15 Registration, refreshments
- 9:25 Welcome, Eric Schavey, Regional Extension Agent, Alabama Cooperative Extension System
- 9:30 Why Store Grain, and Why Is Pest Management Important? Mike Henderson
- 9:45 Sanitation, grain bin preparation, empty bin treatments Kathy Flanders, Extension Entomologist, Auburn University
- 10:30 How to set up a closed-loop fumigation system, Kathy Flanders and Eric Schavey
- 11:15 Loading, Moisture Content, Warren Griffith, Regional Extension Agent, Alabama Cooperative Extension System
- 11:30 Travel to Tennessee Valley R&E center
- 11:45-12:30 Lunch
