

ALABAMA RADON MEASUREMENT PROVIDERS (As of 2/6/2012)

Radon measurement technicians have had a specific course of training and/or they have passed a written test about radon testing procedures.

Being listed in this report is not an endorsement by the Alabama Department of Public Health or the Alabama Radon Program. We do not recommend one company or individual over another, however we do recommend Alabama measurement service providers simply for cost savings in travel. Being on this list merely means that those listed have attended a training course, passed a written exam, and have agreed to perform in compliance with accepted procedures and protocols of the listing organization.

These individuals may be certified by more than one organization and should be able to produce some type of identification or verification. For more information, or the names of other providers, contact the Alabama Department of Public Health, the Division of Radiation Control at 1-800-582-1866 or (334) 206-5391, or the Alabama Cooperative Extension System office in your county.
