NURSERY SOURCE LIST FOR COMMERCIAL TREE FRUIT AND SMALL FRUIT GROWERS

Elina Coneva, Extension Specialist and Assistant Professor, Department of Horticulture, Auburn University, **Robert Boozer**, Extension Research Horticulturist, **William East**, Regional Extension Agent, Alabama Cooperative Extension System

October, 2007

The nurseries listed below are largely wholesale type, which sell plants directly to commercial growers. Most of the nurseries will ship plants upon request to small producers such as home gardeners.

From the practical standpoint it is impossible to list every nursery in the U.S. which has fruit plants. This list was developed to primarily supply information to commercial growers. For information on local retail nurseries in your area, please contact your County Extension office.

The Alabama Cooperative Extension Service does not imply approval of nurseries listed, or disapproval of any nurseries which may not be listed.

NOTICE TO NURSERYMEN: If you desire your contact information to be added to this list in the future and your nursery was unintentionally omitted, please contact Dr. Elina Coneva, 101 Funchess Hall, Auburn University, AL 36849-5408.
