Family Literacy is Focus of PCREP Family Fun Day on June 9

Normal, AL, March 2018---The Alabama Cooperative Extension System's Urban Affairs and New Nontraditional Programs unit will hold the third Family Day of Education and Fun on Saturday, June 9, 2018, from 12:00 to 4:00 p.m. at Alabama Agriculture and Mechanical University's Agribition Center, 4925 Moores Mill Road in Huntsville. Come and bring the entire family and neighborhood youth out for a day of fun, educational, and interactive activities, including exhibits, vendors, door prizes, games, a water slide, a horse carousel, food, music, and much more.

"The Family Day of Education and Fun is an event of the Parent-Child Reading Enhancement Program (PCREP) that has fast become a favorite family and community event. This year we will continue with the theme 'Celebrating Family Literacy' that focuses on activities highlighting the importance of family literacy programs," said Ronnie Humphrey, event co-chair.

In keeping with the theme, kids will have a chance to earn PCREP dollars (play money) from each activity they participate in on June 9 to purchase books at an on-site bookstore. Parents can also earn PCREP dollars by completing the program evaluation form.

The PCREP Family Fun Day is designed to enhance reading among children ages 4 to 9 in grades K-4. This event is free and open to the public; however, vendors must pay a \$35 set-up fee. Also, please be sure to bring proper attire and a towel for the water slide.

For general information, please contact Ronnie Humphrey at (256) 372-4969, Dr. Dorothy Brandon at (256) 372-5458, or visit www.aces.edu/urban. Potential vendors may contact Nancy McCrary at (256) 372-4937.

The Alabama Cooperative Extension System (Alabama A&M University and Auburn University) is an equal opportunity educator and employer. Everyone is welcome!
