

Stream Restoration Construction
September 1-2, 2009 Auburn, Alabama
www.aces.edu/waterquality/iby.htm

Join us for 'Stream Restoration Construction' workshop held in Montgomery, Alabama September 1-2, 2009. The workshop will center on White Slough, an urban stream in City of Montgomery's Ida Belle Young Park.

This workshop will be conducted during construction of an urban stream restoration project in a municipal park. Participants will learn about plan sheet development, construction specifications, permitting, and construction oversight while observing channel grading and structure installation.

Instructors will emphasize urban stream conditions specific to the southeastern U.S. Workshop instructors have experience working on more than 40 stream assessments and restoration projects throughout the Southeast. The workshop will be split between classroom and extensive field work, including project / data summaries evening work sessions. Class limited to first 30 registrants.

*** Completion of the Introduction to Stream Restoration or another basic natural channel design workshop is a requirement for participation in this advanced workshop*

Cost is \$350 for general registration \$150 for government / nonprofit. Sorry, no purchase orders. Checks should be made payable to **Alabama Cooperative Extension System** or visit <https://ssl.acesag.auburn.edu/conference/stream2009/registrationForm.php> to pay with credit card. Registration deadline is August 24, 2009.

CEUs from Auburn University will be available for this workshop.
