

Stream Morphology Assessment
April 1-2, 2009 Montgomery, Alabama
www.aces.edu/waterquality/iby.htm

Join us for a Stream Morphology Assessment workshop held in Montgomery, Alabama April 1-2, 2009. The workshop will center on White Slough, an urban stream in the City of Montgomery Ida Belle Young Park.

This 2 day workshop will teach principles of stream channel and floodplain formation, interactions of morphology and biology, and field measurements of stream dimension, pattern, and profile. Time will be split between classroom and extensive field work, including project / data summaries and evening work sessions. Participants will collect and analyze stream morphology and stability data in an urban stream that is scheduled for restoration in 2009.

Instructors will emphasize urban stream conditions specific to the southeastern U.S. Workshop instructors have experience working on more than 40 stream assessments and restoration projects throughout the Southeast.

Cost is \$150 for government / non-profits and \$350 for general registration. Checks should be made payable to **Alabama Cooperative Extension System**. Please contact Eve Brantley at email address below to use a credit card. Registration deadline is March 27, 2009. Class limited to first 35 registrants.

For more information, please email Eve Brantley at brantef@aces.edu

CEUs from Auburn University will be available.
