

Stream Morphology Assessment
September 20-21, 2007 Auburn, Alabama
www.aces.edu/waterquality/towncreek.htm

Join us for a Stream Morphology Assessment workshop held at the Nunn-Winston House, Kiesel Park in Auburn, Alabama September 20-21, 2007. The workshop will center on Town Creek Tributary, an urban stream in the City of Auburn Town Creek Park.

This 2 day workshop will teach principles of stream channel and floodplain formation, interactions of morphology and biology, and field measurements of stream dimension, pattern, and profile. Time will be split between classroom and extensive field work, including project / data summaries and evening work sessions. Participants will collect and analyze stream morphology and stability data in an urban stream that is scheduled for restoration in 2008.

Instructors will emphasize urban stream conditions specific to the southeastern U.S. Workshop instructors have experience working on more than 40 stream assessments and restoration projects throughout the Southeast. Each participant will receive a reference manual.

Cost is \$150 for government / non-profits and \$350 for general registration. Sorry, no purchase orders. Checks should be made payable to **Alabama Cooperative Extension System**. Registration deadline is September 9, 2007. Class limited to first 35 registrants.

For more information, please email Eve Brantley at brantef@aces.edu

CEUs from Auburn University will be available.
