

Stream Restoration Construction
January 9-10, 2008 Auburn, Alabama
www.aces.edu/waterquality/towncreek.htm

Join us for 'Stream Restoration Construction' workshop held at the Auburn University School of Forestry and Wildlife Sciences Building in Auburn, Alabama January 9-10, 2008. The workshop will center on Town Creek Tributary, an urban stream in the City of Auburn Town Creek Park.

This workshop will be conducted during construction of an urban stream restoration project in a town park. Participants will learn about plan sheet development, construction specifications, permitting, and construction oversight while observing channel grading and structure installation.

Instructors will emphasize urban stream conditions specific to the southeastern U.S. Workshop instructors have experience working on more than 40 stream assessments and restoration projects throughout the Southeast.

The workshop will be split between classroom and extensive field work, including project / data summaries evening work sessions.

*** Completion of the Introduction to Stream Restoration or another basic natural channel design workshop is a requirement for participation in this advanced workshop*

Cost is \$350 for general registration \$150 for government / nonprofit. Sorry, no purchase orders. Checks should be made payable to **Alabama Cooperative Extension System**. Class limited to first 30 registrants.

CEUs from Auburn University will be available for this workshop. For more information, email Eve Brantley at brantef@aces.edu

For advanced registration, please send registration and workshop fee to:
