

Watershed Academy

Athens, GA • March 28-30, 2006

Please join us this spring in Athens, Georgia for the 5th Watershed Academy: Principles of Water Quality Monitoring, Planning, and Restoration. Academy participants will learn how to apply water quality and watershed management principles to understand and solve complex water resource problems. The Academy will mix classroom lectures and field work with time to explore Athens and the surrounding area.

The Watershed Academy is March 28-30, 2006. More information is available on our web site:
