Research Station

Research Station to GoldVine Farm

- Arnold Caylor will allow visitors to stop by before going to GoldVine farm from 4:30-5:30 pm for the purpose of seeing the equipment they use on the vegetable research station and to answer equipment questions related to vegetable growing.
- The research station is $\frac{1}{4}$ mile off highway 157 just east of Cullman Regional Medical Center. For most people it will be close to the route they will take to GoldVine farm and the map on the reverse shows both locations.
- The address is 765 County Road 1466, Cullman. There is a small portable office building in front with some work sheds behind that building. He will have equipment near the work buildings.
- If you have a problem call Tony at 205-568-0005 or Arnold at 256-531-2948
