Here are several reasons I would make an exceptional Regional Extension Service Agent for job number 411480. First, I am extremely self motivated. Second, I have a proven track record of working well in team oriented situations. Third, I have an extremely diversified farming background. Finally, I am young, energetic, and love to interact with other people.

While working towards a degree from Auburn I have covered almost all of my own expenses. Also while at Auburn, I have taken many courses that will be beneficial towards a job with ACES. Two courses that really stand out are Farm Management and Agribusiness management. Both of these courses included a team project and required a great deal of use with computer programs such as Word and EXCEL. I have also taken several courses in Agricultural Leadership. During high school I served as Vice President and President of the Student Government Association. I was also chosen as a permanent team captain by my teammates in football and baseball. Also during high school I was chosen to a county wide leadership group called Hale BOPP (builders of positive partnerships).

I grew up on a fairly progressive cattle operation where I first fell in love with farming. I am extremely interested in all aspects of the cattle industry from proper pasture management to herd health management programs. This past summer I had the opportunity to work for Hollinger Cattle Co. During my internship I not only worked with stocker cattle, but also interacted with producers, extension agents, and several professors from Auburn. While working for Dillard

Farms I gained a tremendous amount of knowledge about horse quality hay while helping them with their hay operation. I also enjoyed my time working in the family feed store which allowed me to work with the public. I have been employed by Auburn two times, once with the Agronomy and Soils Dept. and once with the Fisheries Dept. While working for the agronomy and soils department I helped with research projects that focused on cotton, soybeans, and velvet beans. While at the fisheries department I worked on the student crew helping professors with research projects. I also took part in all aspects of raising fish such as feeding, taking water samples, harvesting, and running oxygen checks at night. While working for Glover Farms I helped with all of the daily aspects of the cattle operation, hay operation, and wildlife management. While there I learned a great deal about pasture, hay land, and wildlife food plot management.

Last, I am a people person. I have a strong desire for all agriculture. There is nothing that would please me more than to work closely with farmers and other extension agents to better agriculture. If given the opportunity to work for the Alabama Cooperative Extension Service I would be a wonderful agent and representative of the organization.

Ms. Chris McLendon Human Resources Specialist 105 Duncan Hall Auburn University, Alabama 36849

Dear Ms. McLendon,

It is a pleasure to write this letter of recommendation for Mr. Chris Thomas, who has applied for a Regional Extension Agent position in Animal Sciences and Forages. There are few times when you feel that you can recommend a person without any doubts or reservations, but we are proud to say that this is one of those rare times.

Chris Thomas worked with us this past summer as an intern. He was hands down the best employee we have ever had at Hollinger Cattle Company. Chris loves cattle and everything that goes with the business. He is very knowledgeable in the area and at the same time very eager to learn.

Besides loving the cattle business, Chris also loves people. His personality is perfect for this position. After only a few weeks on the job, Chris was given supervisory responsibility over two other farm workers. He was able to work with the lowest man as well as many prominent cattle producers equally.

If Mr. Thomas is the successful applicant for this position, we can assure you that he will be a loyal, responsible, punctual and reliable employee. He certainly was this and more for us.

While at our farm this summer, Chris had the opportunity on several occasions to work with Regional Extension Agents from this area as well as other parts of the state. This gave him a special insight into what this job is all about. These experiences have convinced him that this is the type work he would love to devote his career to.

Please give Chris Thomas your serious consideration for this position.

to and Jaconi Hollinger

Sincerely

Leo and Jeannie Hollinger

Dr. Paul Mask Assistant Director, Agriculture & Natural Resource 109D Duncan Hall Auburn University, AL 36849

Dear Dr. Mask,

I would like to recommend Chris Thomas for the position of Regional Extension Agent in West Central Alabama. I have known Chris all of his life. He is a very hard working and conscientious individual. He has lived and worked on a farm the majority of his life even during the time that he has been in school at Auburn University.

Chris has worked for me on weekends and during the summer since he was thirteen years old. He has a first hand working knowledge of the stocker cattle industry, working with a commercial cow-calf operation and planting and harvesting forages. Chris has helped build cattle working facilities and hay barns. He has hands on experience in working and feeding cattle. He will have a real understanding of the economics of agriculture since his major is Agriculture Economics.

Chris is an outgoing, personable young man. He works well with others both young and old. He is always willing to listen to other people's views. He understands that what will work for one person doesn't always work for someone else. He is willing to learn and try new things.

I believe that Chris would be a real asset to the Alabama Cooperative Extension Service.

Sincerely,

Keith Glover

Mrs. Chris McClendon Human Resource Specialist III 104 Duncan Hall Auburn University, AL 36849

Dear Mrs. McClendon,

I am extremely pleased to recommend Christopher Thomas for the Regional Extension Agent position. I had the privilege of working with Christopher during his summer internship and as a student in my Agricultural Business Management course. I can say without hesitation that he exhibited a strong work ethic and a vast knowledge of production agriculture.

My recommendation is based upon the experience of interacting with a well rounded student with excellent people skills. I first met Christopher while he was working at Dillard's Country Store in Tallassee, and after our conversation he decided to change his major to Agricultural Economics. In order to pay for his education, Christopher was required to work part-time while taking a full course load. This had a negative impact on his grade point average, but it speaks to his work ethic and character. His personality and professional experience have equipped him with the ability to fit comfortably in formal, professional as well as informal social settings. I feel that his personality, educational training, and experience have given him the maturity, focus, and ability to make decisions, which are important traits for an effective Extension Agent. I feel that his greatest asset is his confidence and ability to work with people.

It was a privilege to have Christopher as a student, and it is without reservation that I recommend him for the Regional Extension Agent position. I anticipate that he will be a tremendous asset to the Alabama Cooperative Extension System. If I can be of further assistance, please do not hesitate to contact me.
