A One-Day Conference

Learn new skills to impact families & strengthen communities…

The Annual Family Conference is an Extension medium to address issues affecting families, children, and individuals residing in Alabama. The Conference combines the voices of communities and professionals in a number of fields with an interest in families & children.

Conference Objectives

- Build the competency of professionals to deliver holistic programs for family development
- Enhance the capacity of professionals to create resources for family-centered communities
- Promote nontraditional community partnerships to address issues affecting families, children & individuals
- Promote ethics-based practices in the human services
