Exploring Alabama’s Resources

Alabama 4-H provided 29,036 young people with opportunities to learn about and explore our state’s natural resources through forestry, wildlife, water, stewardship, and recreation.

71,241 young people in Alabama 4-H

Through 4-H Outdoor Education programs, young people actively explored the outdoors.

- 100 virtual contest freshwater anglers
- 77 miles of paddling in Alabama freshwater
- 53 water monitoring collections
- 32 forestry and wildlife management competitors

The Bottom Line

4-H is equipping young people with the knowledge and skills to protect and conserve Alabama’s valuable resources.
